## VINEYARD NOTES

A blend of Croft (mostly sedimentary soil), Momtazi, (sedimentary and volcanic soil) and Keleri (volcanic soil) vineyards, hailing from the south, west, and north of the Willamette Valley respectively. It showcases the breadth of the terroir in the Willamette Valley with the inclusion of both volcanic, basalt-based soils and sedimentary, sandstone-based soils. The wine hails from geographically diverse sites within the valley, each with their own unique micro-climates.

## WINEMAKING NOTES

In order to build a complex and layered Willamette Valley blend, we used open-top, closed-top, and barrel fermentation. For the open-top tanks, a preference for punch-downs was utilized, whereas the closed-top tanks used pump-overs exclusively. The rotator barrels spun on a schedule yielding a gentle extraction. All methods also received at least two rack-and-returns at precise times during the fermentation process. Nearly all lots were cold-soaked for up to 10 days, and native yeasts were used exclusively. In total, 25% whole clusters were used. The wine was aged for 11 months in 28% new and 31% once filled French oak barrels. Clones: Pommard, Wadensville, Dijon 115 and 777.

## WINEMAKER'S TASTING NOTES

*Bold and balanced, this Pinot Noir showcases fresh cherry, strawberry, and marionberry aromas and flavors backed by notes of wet earth, smoke, and spice. A layered wine with depth, well-integrated acidity, and refined tannins.*

2014 Five FACES  
Pinot Noir

Varietal	100% Pinot Noir
Appellation	Willamette Valley
Clones	Pommard, Wadensville, 115, 777
Alcohol	13.5%
pH	3.78
TA	4.9 g/L
Brix at Harvest	24.5
Aging Regime	28% new, 31% second fill, 41% neutral
Drinking Window	Drink now through 2026
Cases Produced	650
